

Meeting Minutes – October 24 2023

Action items:

- Acceptance testing
 - CI/CD pipeline set up
- Push to main branch
- concern with pushing to main
- Database and the ConnectDB.js
 - does not need to be local therefore we need to each have our dummy data for our own local databases.
 - pictures
 - dummy data
- concern for package.json files
- the edit properties view is basically same as listing details but with editable boxes

Next meeting:

- integration of parts
- database connection
